

3" Flexi-Drive

Dewatering pump

Features

The 3" Flexi-Drive pumps make dewatering easy!

With these pumps there is no priming required as the pump head is submerged under the water.

All you need to do is simply start the engine and it will begin to pump water.

Powered by the Robin EY20 commercial grade engine that you can rely on for long life and easy starting!

- Lightweight and portable
- Cast iron impeller
- 6m Flexi-coil
- Movable coil protector to prevent coil from kinking over sharp edges
- Easily connected/disconnected
- Protected by a heavy carry frame Maximum
- 3 dog coupling for improved wear life and safety
